**REQUEST FOR CERTIFICATE OF CORRECTION**  
**PURSUANT TO 37 C.F.R. § 1.323**

Dear Madam:

Enclosed herewith is a Certificate of Correction with respect to the above-identified U.S. Patent. You are hereby authorized to charge Deposit Account No. 12-1095 in the amount of \$100 to cover the required fee for filing a Certificate of Correction under § 1.323.

The application which issued as U.S. Patent No. 7,272,572 ("the '572 Patent") was filed on November 28, 2000. Applications filed prior to November 29, 2000 may be amended to correct priority information pursuant to 37 C.F.R. § 1.78(a). See Manual of Patent Examining Procedure § 1481.03(II)(A).

Provisional application 60/190,770 ("the '770 provisional application") was filed on March 20, 2000, naming John T. Pienkos as the inventor. In the instant case, all requirements set forth in 37 C.F.R. § 1.78(a)(3) were met in U.S. Application No. 09/724,744 ("the '744 application") filed on November 28,

2000, which became the '572 Patent. The '744 application also named John T. Pienkos as the inventor.

It is clear from the record of the '572 Patent that priority to the '770 provisional application is appropriate. In particular, the Declaration submitted in the '744 application lists the '770 provisional application in the section stating "I hereby claim the benefit under 35 U.S.C. 119(e) of any United States provisional application(s) listed below." A copy of this Declaration is attached. Due to an error, the priority claim to the '770 provisional application was not also included in the specification of the '744 application or in an application data sheet.

Patent owner seeks to correct this error, which was inadvertent, occurred in good faith and does not involve any changes that constitute new matter.

We look forward to early return of the Certificate of Correction duly certified. If there are any additional charges in connection with this requested Certificate of Correction, the Office is authorized to charge Deposit Account No. 12-1095 therefor.

Dated: March 28, 2012

Respectfully submitted,
